Qurbanov Zaur
FullStack web developer

Full-Stack Developer with hands-on experience in **Node.js**, **Express**, **NestJS**, **AdonisJS**, **React**, and **Next.js** ecosystems. Proven track record in building high-load resilient backend systems, developing optimized APIs, and constructing modern User Interfaces. Possesses practical knowledge in database design and performance optimization using PostgreSQL and MongoDB.

Professional Summary

Back-end Developer	**Cef Academy**	**2022–2023**

● Developed secure and optimized REST APIs using **Node.js** and **Express**; built modern frontend modules and components based on **SSR** using **Next.js**.

● Designed database structures and improved query performance. Optimized existing modules and significantly reduced API response times.

Front-end Developer	**Sinapsmed**	**2025-Present**
	Remote	

● Developing responsive and performance-oriented UIs using **React** and **Next.js**
● Working on API integration and improving rendering performance..

Front-end Developer	**Millisoft**	**2023-Present**
	Hybrid	

● Developing dynamic web applications based on **React**.
● Building reusable components and developing scalable UI architectures.

Projects

● turkiccluster.com **Full-Stack Developer:** Utilized **Next.js**, **Node.js**, **Express.js**, and **MongoDB** to build the platform

● sinapsmed.com **Frontend Developer:** Built the user interface using Next.js

● mindmap.az **Backend Developer:** Designed and implemented server architecture using Node.js, Express.js, and MongoDB.

● ayonmmc.az **Frontend Developer:** Developed static web pages using HTML, CSS, and JavaScript.

● sensiblehr.az **Frontend Developer:** Collaborated with the team to create modern, interactive, and multi-functional ERP web pages.

● vladimir-fasij.com **Full-Stack Developer:** Created an interactive website using Webflow.

Texnoloji və proqramlaşdırma dili bacarıqları

- **Frontend**: React, Next.js, JavaScript, HTML, CSS
- **Backend**: Node.js, Express, NestJS, AdonisJS
- **Verilənlər Bazası**: PostgreSQL, MongoDB
- **Alətlər**: Git, REST API, Linux, Deployment

Education & Certifications

- **National Aviation Academy** – Bachelor's Degree
- **Codelandia** – MERN Stack Development
- **MilliSoft** – Full-Stack Development
- **Continuous Learning** – Ongoing self-development via online platforms to enhance technical skills.

Languages

- **Azerbaijani:** Native
- **English:** B1 (Intermediate)
- **Turkish:** Proficient
